

## Reservation Assistant version 3.91: Spa and Activity Management Software

Leading spa, sport, activity and dining management

For destinations, hotels and resorts, leisure centres, day spas and fitness clubs

Reservation Assistant is the worlds leading spa & activity management solution providing a holistic and enterprise-wide solution with superior integration enabling your business to excel in a competitive industry.

### Purpose:

In today's market, successful spa and leisure management is a great challenge. The optimum allocation of staff, rooms and booking times, package administration, gift certificate management, membership administration, guest satisfaction, and above all profitability – requires information provided at your finger tips, needs analysis at a pulse, and information and reporting on demand.

### Solution:

Reservation Assistant equips your business with the tools needed to succeed in business. Guest expectations met, operations controlled, and management seamless, providing a clear Return on Investment.

- Rich in features, yet simple by design
- Scalable according to your needs
- Enhanced graphical user interface to 'know' at a glance
- Integrated as needed, be that property management, finance, inventory, credit card/payments, web and others
- Know your past, present and future members and guests
- Optimize resources effectively – stock, staff, rooms, equipment
- Reach your target audience with enhanced CRM tools
- Forms, receipts, confirmations, gift vouchers, mail outs – all tailored to your needs

### Modular:

Reservation Assistant is scalable per module and per user, per site or per chain, making it affordable and designed to meet your needs:

- **Scheduling:** Booking appointments, recurring appointments, groups, classes and courses, group-ex & fitness schedules, packages, staff time (i.e. – break, training, reception). Print confirmations, itineraries, attendance lists, etc. Drag & drop. Cut & paste.
- **Point of Sale:** Point of sales and billing for any type of payments, deposits, partial, member charge, credit card direct. Receipts and invoices designed to your needs. Includes hotel room or group charges. Includes retail sales, gift voucher sales (and redemption). Supports bar code scanning and magnetic card member / VIP card identification.
- **Reporting:** Powerful reporting for all activity, financials, guest and member details, gift vouchers, packages, and the like. Over 1,000 report variations possible. Save to screen, PDF, XLS, xml and html formats. Even automate reports based on a scheduler.
- **Gift Vouchers:** Sell, print, track, redeem and even partially redeem gift vouchers with ease. Designed as you need.
- **Packages:** Sell, book and allocate packages on the fly on in advance. Includes accommodation package management if needed.
- **Employee Scheduling:** Roster staff as needed, optimizing bookings, therapists, trainers and the like. Print rosters and shifts.
- **Memberships:** Powerful membership module for member contracts, rights/access, recurring fees, discounts, privileges, and more.
- **Check-In Control:** Know who visits, when, and for how long. Identify non-users and action accordingly.
- **Web Bookings:** Online bookings, retail sales and gift voucher sale. Includes secure member login.
- **Stock / Purchasing:** Inventory control as well as online point of sale decrementation. Stock taking, purchasing including order requisitioning through to purchase ordering and goods receipt.
- **Dining / Table Bookings:** Ability to book tables or other for food & beverage reservations with visual overlay of outlet
- **Golf:** Tee time, handicaps, golf-pro scheduling, driving range management, green fees, gold school, and more.
- **Interface – Property Management:** 1 or 2 way interfaces for room / group charging and guest data import into Reservation Assistant
- **Interface – Financial Systems:** 1 or 2 way interfaces with financial systems for revenue, payment and transactional.
- **Interface – Credit Cards:** Reservation confirmations, waitlists, cancellations, pre-arrival updates, upgrade offers, and more.
